

Educational Initiatives Platform mobadara.gov.jo

* The platform provides an electronic system for recording educational initiatives that are implemented in cooperation with the Ministry of Education.

* This system works to link the Ministry of Education on the one hand and the owners of initiatives from institutions, organizations or individuals wishing to put their mark in the education sector on the other hand, to provide qualitative and effective initiatives in the public education sector with the aim of improving education outcomes by integrating technology and modern teaching strategies into the educational process.

* The platform provides a software system for managing projects and initiatives, starting from registering the initiative in the planning and design phase and converting it into an existing project, up to building a file for the initiative that is continuously monitored and updated so that the stages and tasks can be tracked by the concerned parties through a software system that simulates the construction of leading project management systems.

How do you benefit from this platform?

Whatever you are, a non-profit organization, a donor, or even individually, all you have to do is Register on the platform and enter the entity's data, and then your account will be activated. Adding the project or initiative that you want to implement with all the details related to it. Adding the basic stages of implementing the initiative .The initiative will responded to with approval or rejection after studied by the Ministry of Education. After the idea or initiative has been approved by the Ministry of Education and the work team formed, you can enter the project management system to manage your initiative information and follow up on the tasks.

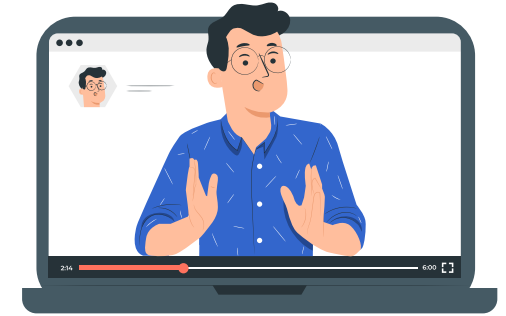

***If you are an entrepreneur:**

Register on the platform and extract the individual data, and then your account will be activated.
